Travis Holley Promoted to Machine Safety Services Manager at Polytron, Inc.

Duluth, GA – 10 May 2022 – Polytron, Inc., a leading consulting and engineering firm serving manufacturers in North America, is pleased to announce the promotion of Travis Holley, CMSE® to Machine Safety Services Manager, effective immediately. Since earning the elite status of Rockwell Automation's first North American Machine Safety Solution partner in 2014, Polytron has consistently invested in the TÜV certification of select engineers, like Travis, to meet the growing machine safety needs of its clients and ensure the highest level of safety solutions.

Travis started with Polytron in 2011, and he holds an Electrical Engineering degree from Auburn University. With over 25 years of experience, Travis is a skilled Senior Electrical Engineer and a Machine Safety Business leader at Polytron, Inc. He has worked in a wide range of manufacturing industries including Food, Beverage, and Consumer Products, delivering engineering services in Process, Material Handling Systems, and Machine Safety.

When asked about Travis's positive impact on Polytron, Damian Stahl, PE, PMP, Vice President of Operations states, "Travis has a proven track record for delivering successful automation and machine safety projects and a passion for improving our service offerings in the area of Machine Safety. He will be a great leader for our Machine Safety Team as he takes on this role."

Travis manages a team of engineers that performs all functions in the machine safety life cycle including: Risk Assessment, Safety Design, Implementation, and Validation. In 2015, Travis became a Certified Machine Safety Expert (CMSE®) and earned the TÜV NORD Safety certification.

The CMSE® – Certified Machinery Safety Expert (TÜV NORD) is a globally recognized qualification enabling a 360-degree approach to machine safety. TÜV NORD, with its subsidiary TÜV NORD CERT, is an international certification body and is present in more than 70 countries worldwide. The CMSE® – Certified Machinery Safety Expert certification is validation of competency in machine safety.

About Polytron, Inc. - Polytron, is a CSIA-Certified leader in engineering consulting and systems integration and 2019 System Integrator of the Year. Applying almost 40 years of manufacturing engineering expertise, we deliver full manufacturing systems and solutions. We design and execute innovative solutions to help our clients improve operations and performance to remain competitive in an ever-changing market.
