Polytron, Inc. Appoints Ronald Rich to CEO

Duluth, GA – 08 February 2017 – Polytron, Inc., a leading engineering consultancy and systems integration firm based in Duluth, Georgia, proudly announces the appointment of Ronald Rich to CEO as of January 1, 2017, following the retirement of Polytron founder, Charles Jager.

As CEO, Ron will focus on connecting with our customers and industries, setting vision and strategy for the organization, and strengthening our culture and our leadership team.

“I am humbled by this appointment. I believe in the people at Polytron and I am excited about our future. We are uniquely positioned to be a dominant player as the industry moves into the digital transformation era. Digital transformation technologies such as the Industrial Internet of Things, Product Lifecycle Management, smart manufacturing, and the like, represent tremendous opportunities for manufacturers to gain competitive advantages. Our service-oriented expertise along with our commitment to creating value for our customers and developing our people will help ensure Polytron’s continued success. Technology is evolving at a rapid pace and Polytron is here to help manufacturers manage this changing landscape.”

Ron holds a Bachelor of Electrical Engineering degree from the Georgia Institute of Technology. He joined Polytron in 1987 and has been an officer in the company since 1994. He has made invaluable contributions at each position he has held. Ron is a licensed professional engineer in the State of Georgia and holds Project Management Professional certification.

###
